

Seekh

Enabling Communities to Learn

Current Situation

- Equitable education for all has always been a challenge that we as a country are trying to solve. The pandemic situation has made it worse
- Covid has affected 91% of India's pupil populace (around 320 million students)
- 6 million children have lost their education

What is Seekh?

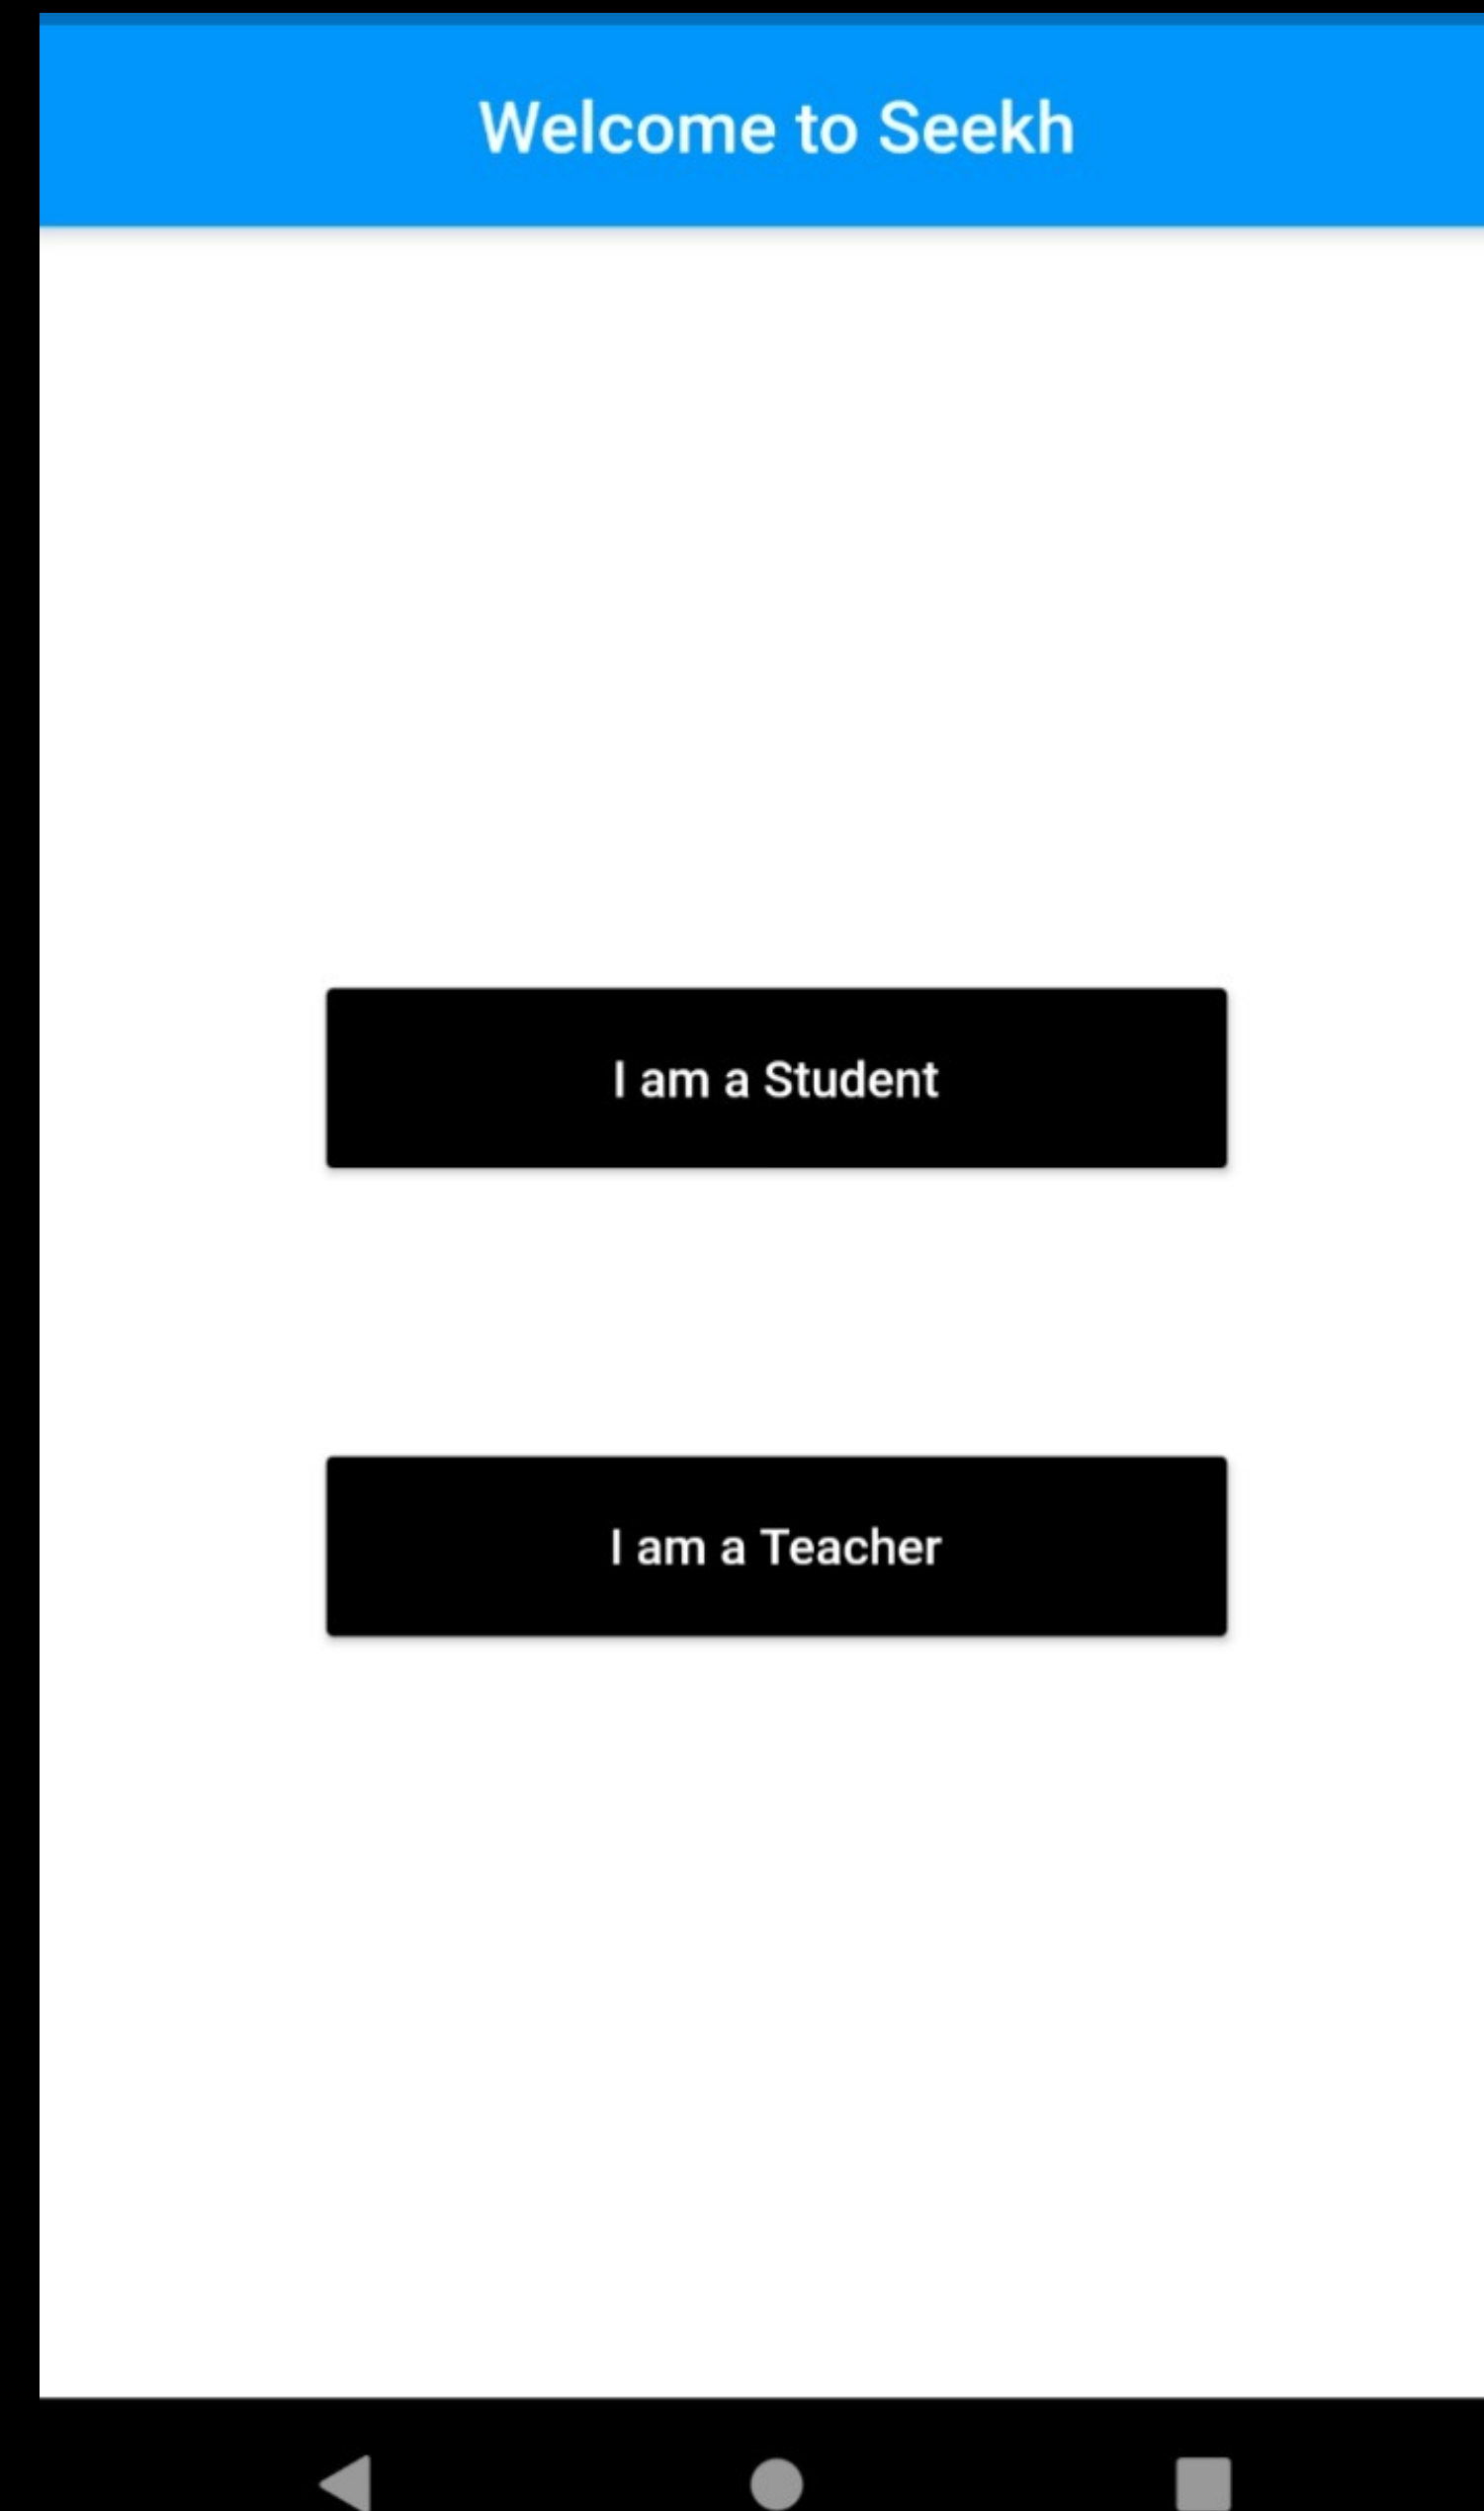

- **Seekh is an app based solution that helps connect students and teachers around the country**
- **We use innovative and creative solutions to provide access to education to the underserved communities by leveraging relevant tech tools.**
- **Know more on our website - seekh.info**

How it works

- **Students and Teachers register on the platform**
- **Teacher's view student information**
- **Teacher can now connect with the student and begin teaching**

Step 1

- The user registers either as a teacher or as a student

Step 2

- User enters his/her details

For Student

Please Enter your Deatils

Name

Age

Standard

City/District

Languages Known

Done

For Teacher

Please Enter your Deatils

Manas

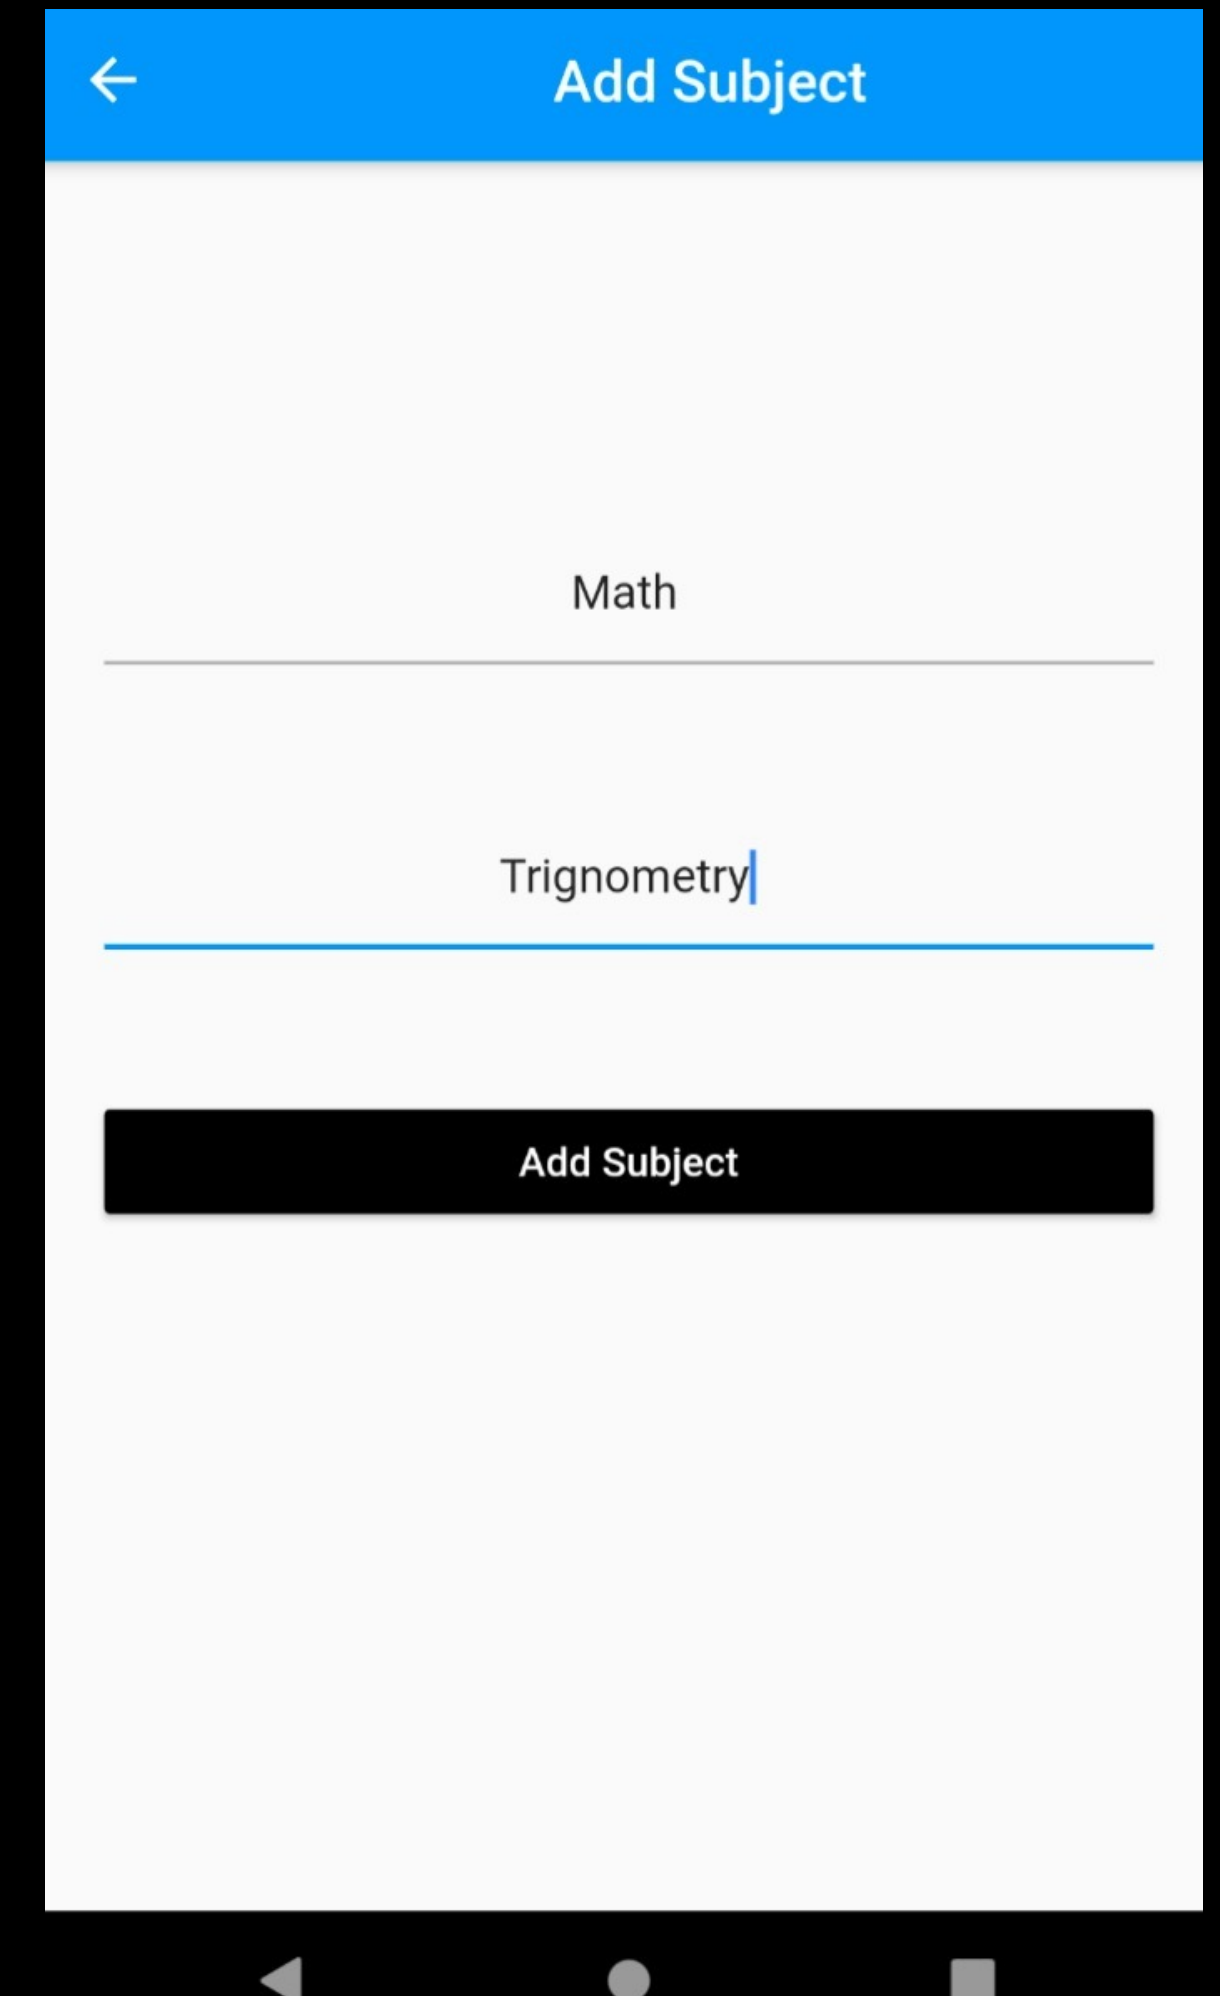

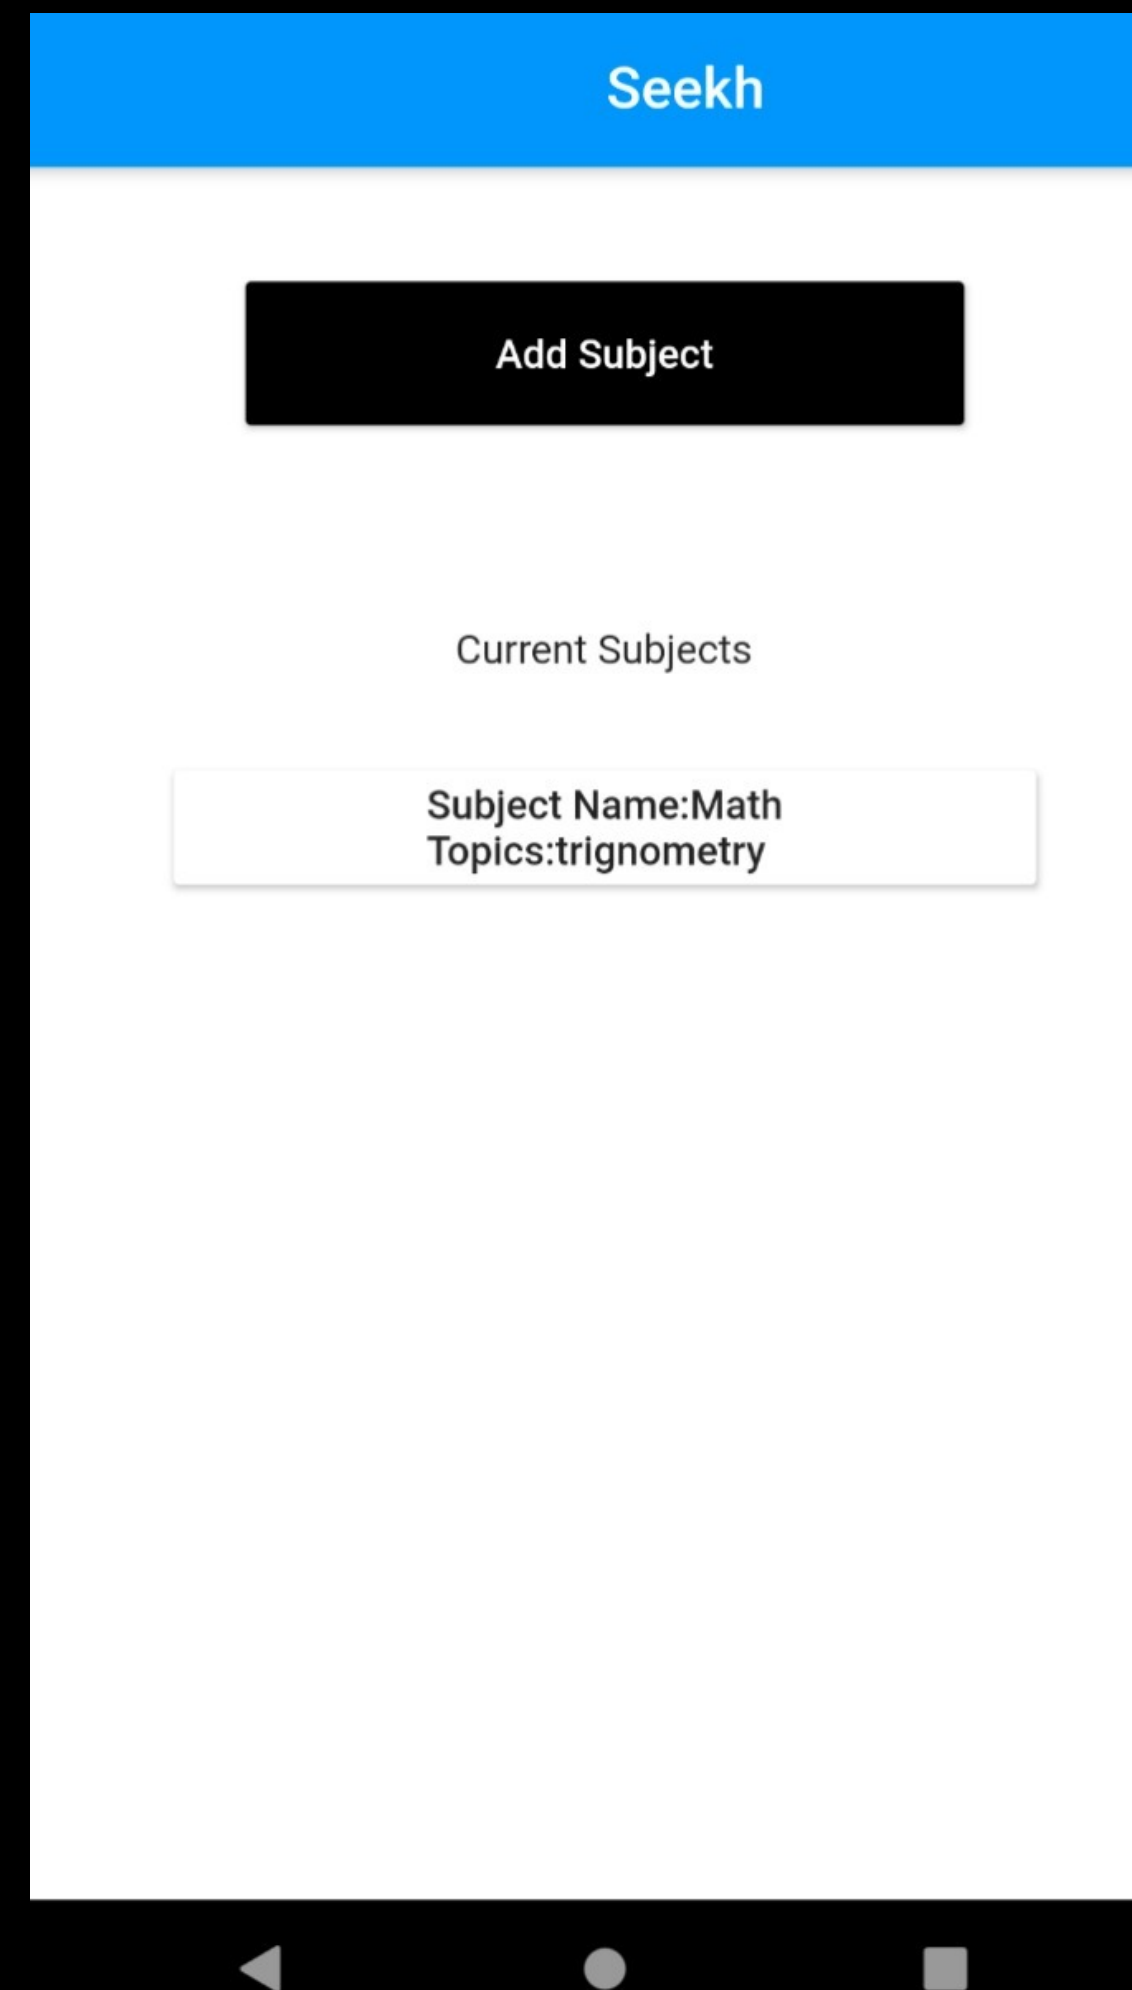

Bangalore

Hindi English

Done

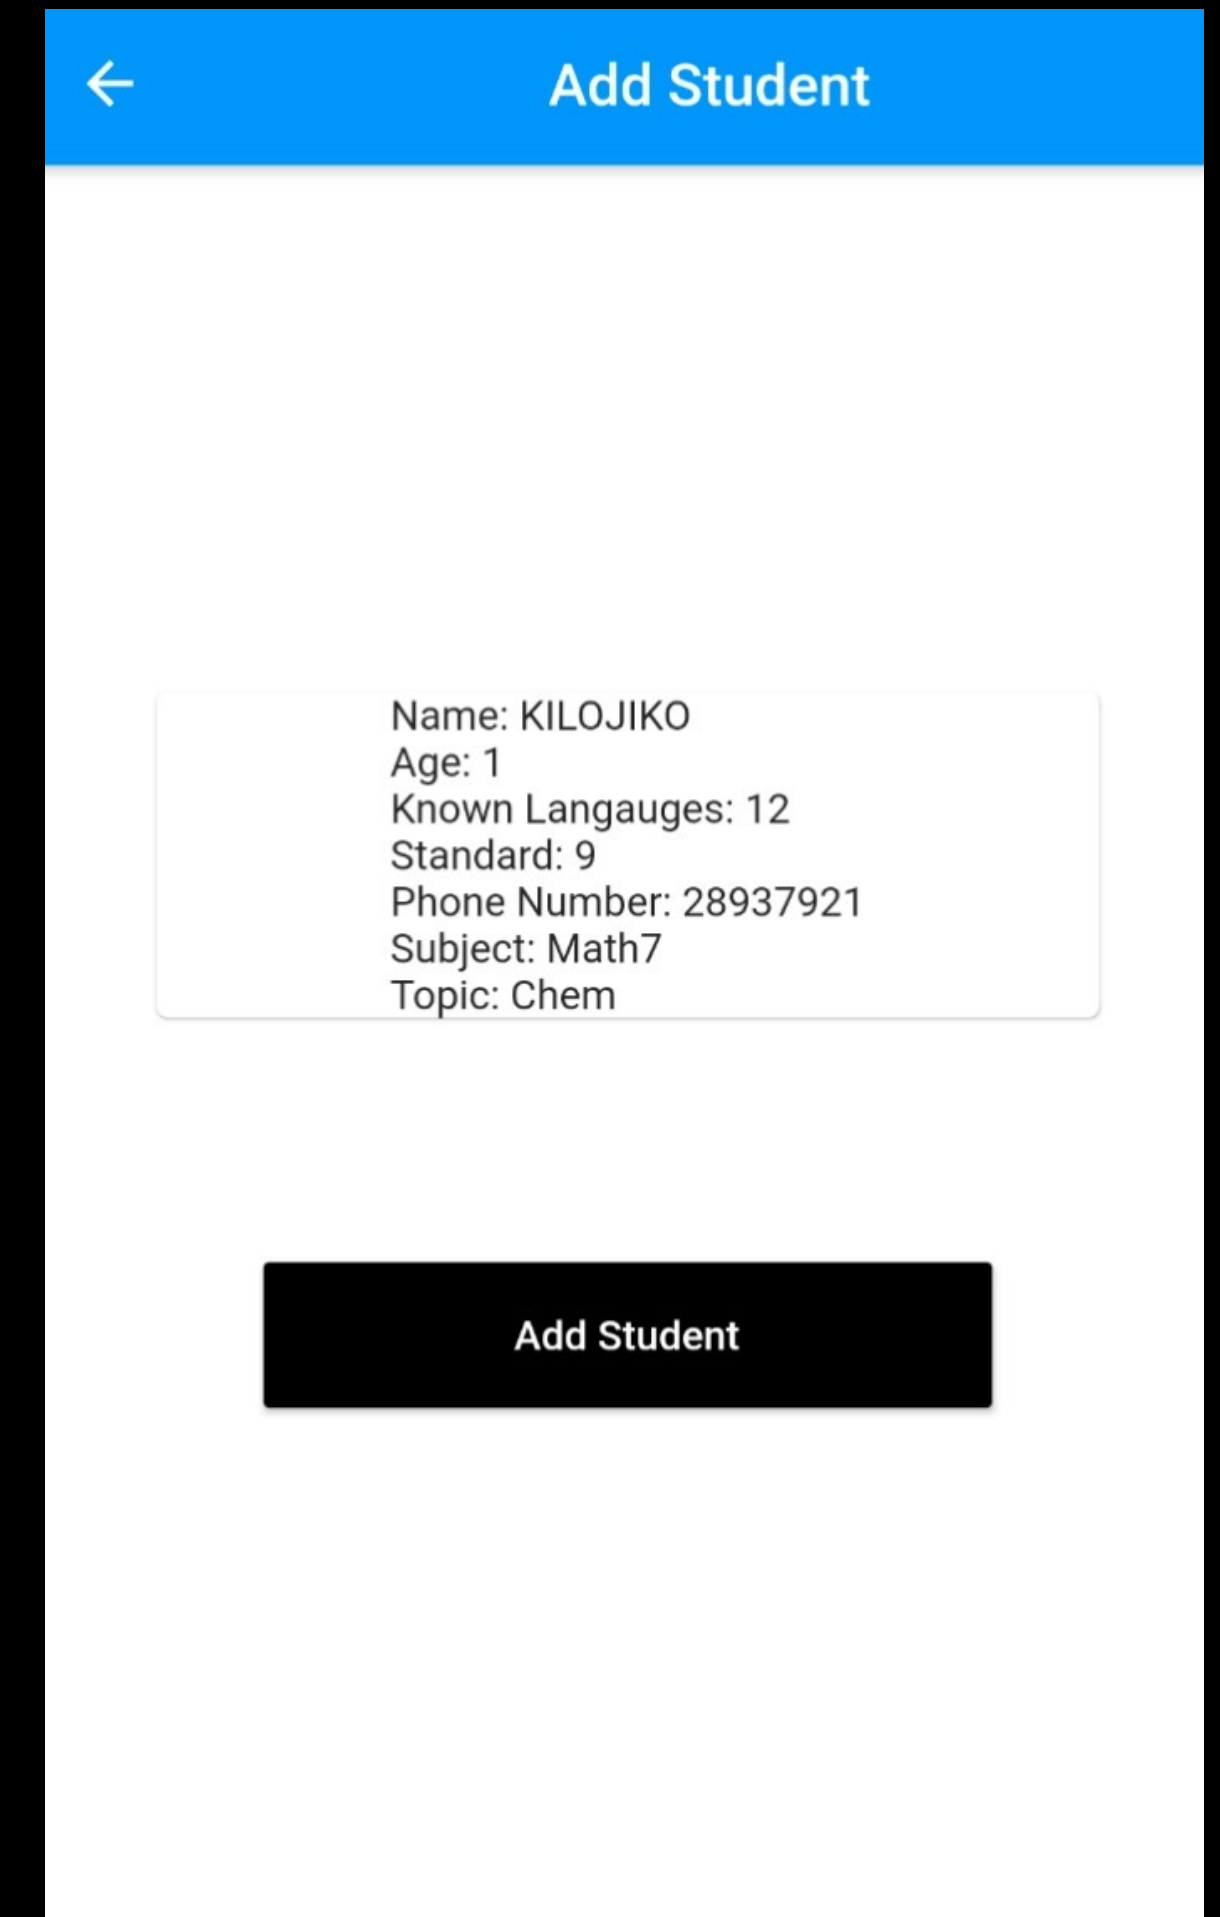

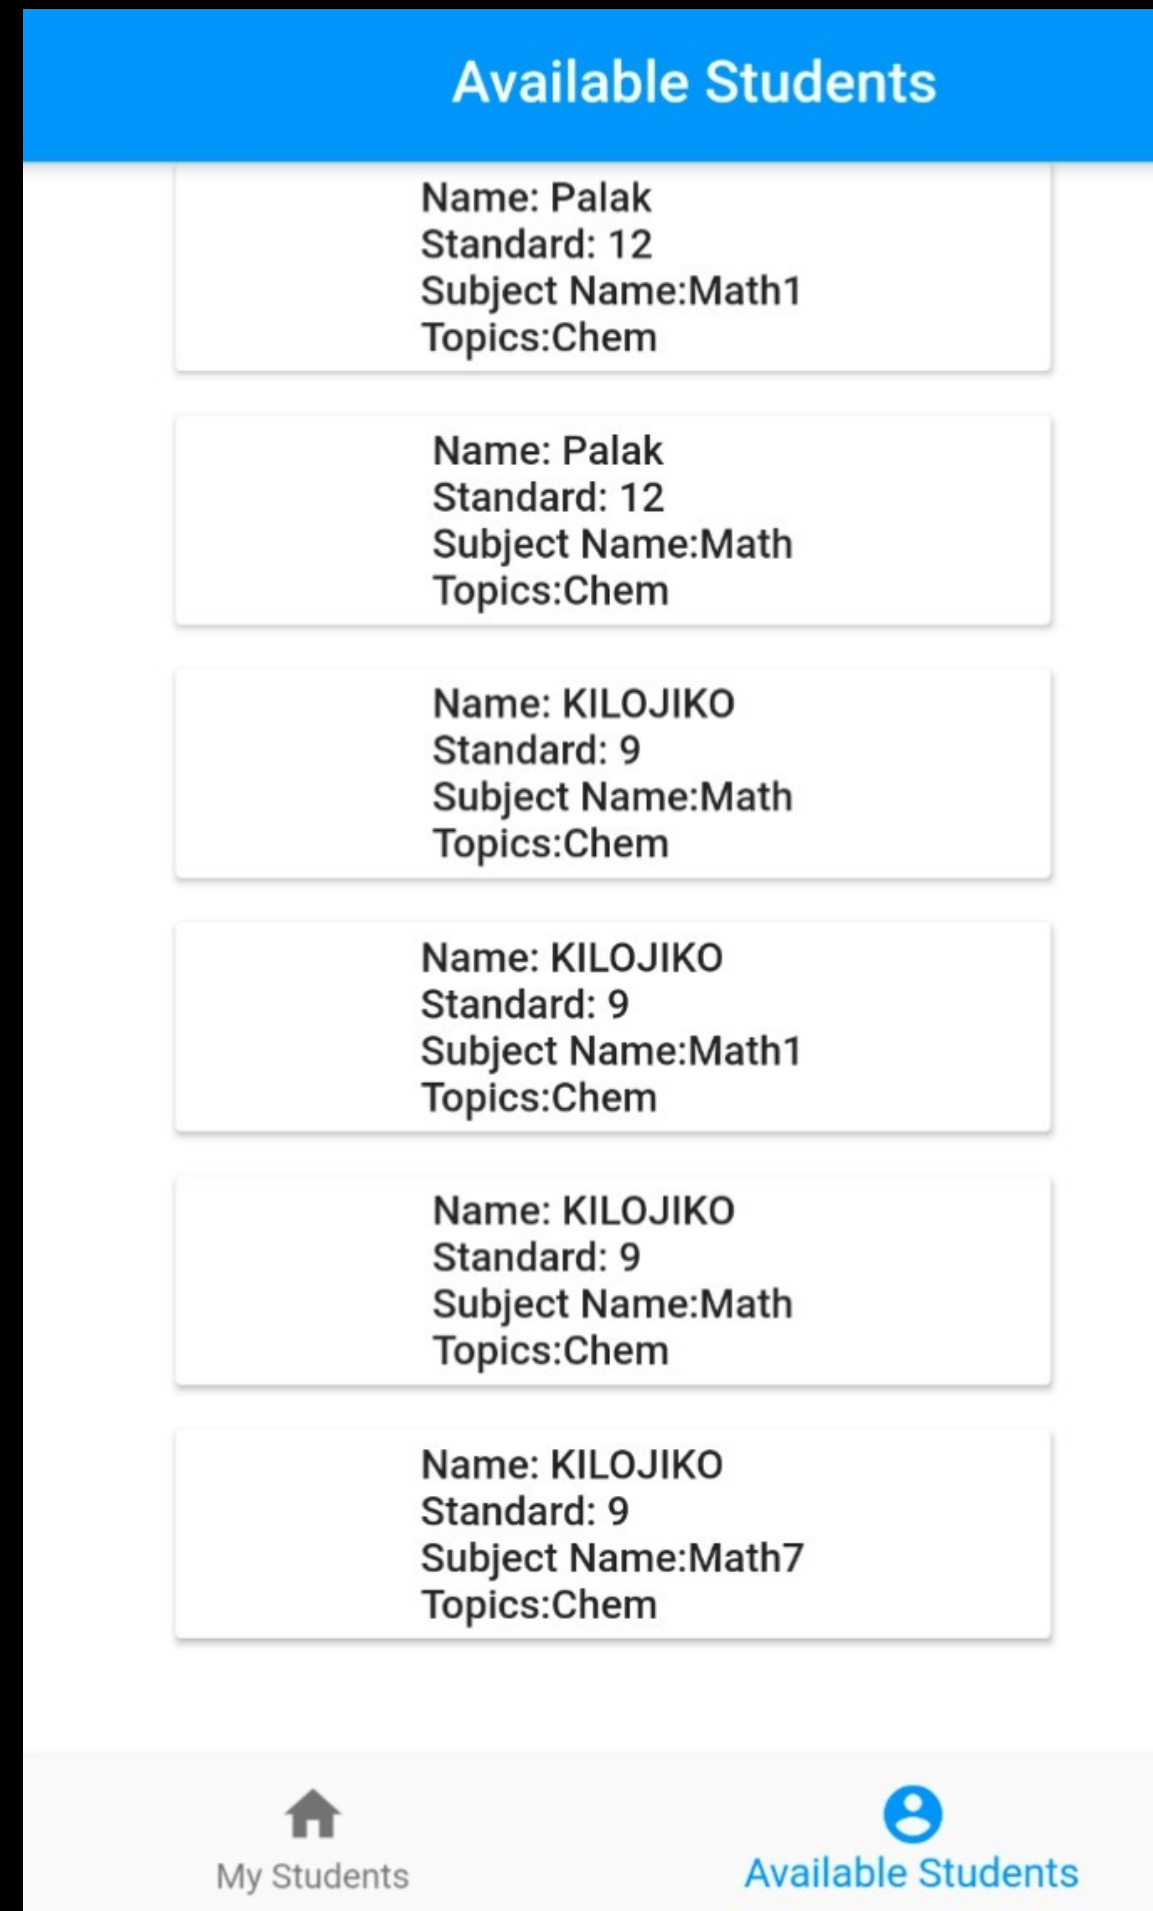

Step 3

If the user is a student they add what subject and topics they want clarified

Step 4

Teachers can now view this student data and start teaching!

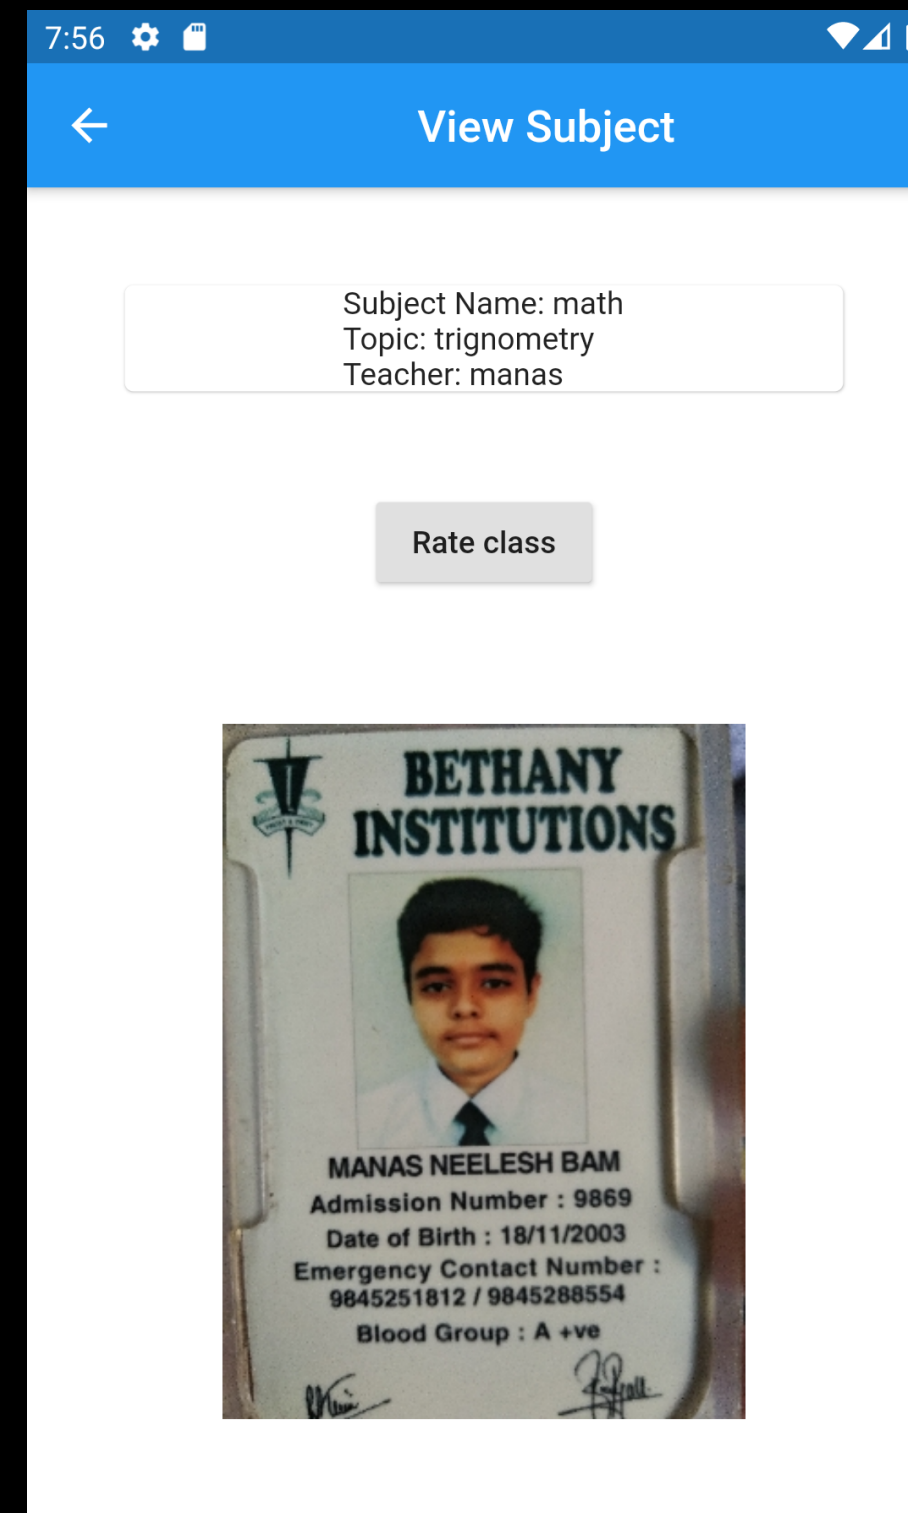

User Security

We at Seekh strongly believe in user security and have hence included numerous security checks to ensure the safe usage of the platform by all.

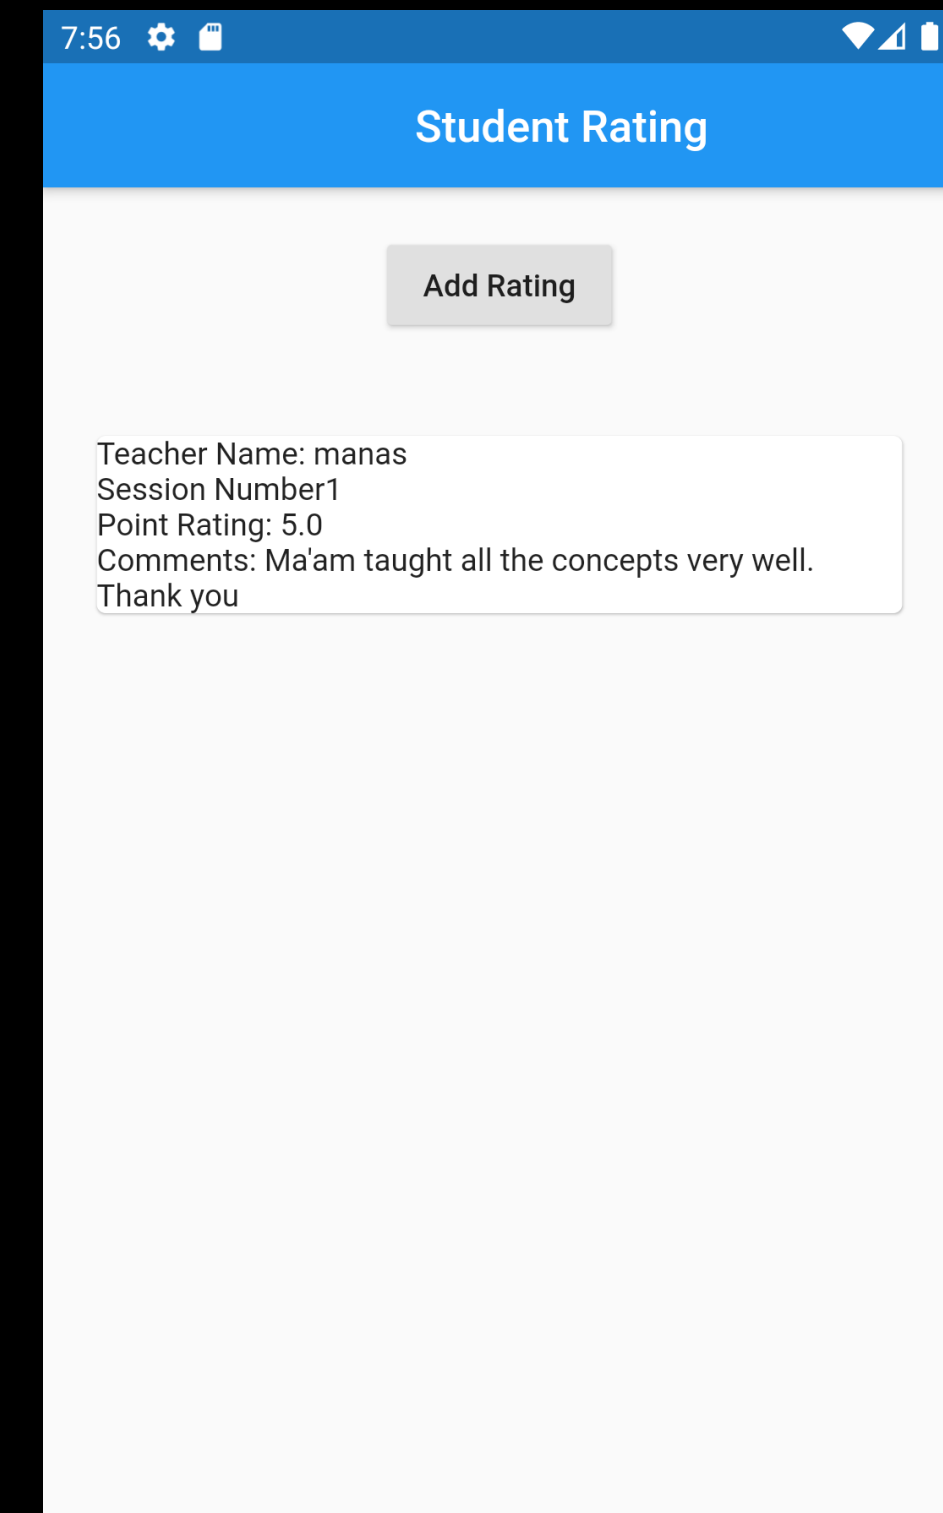

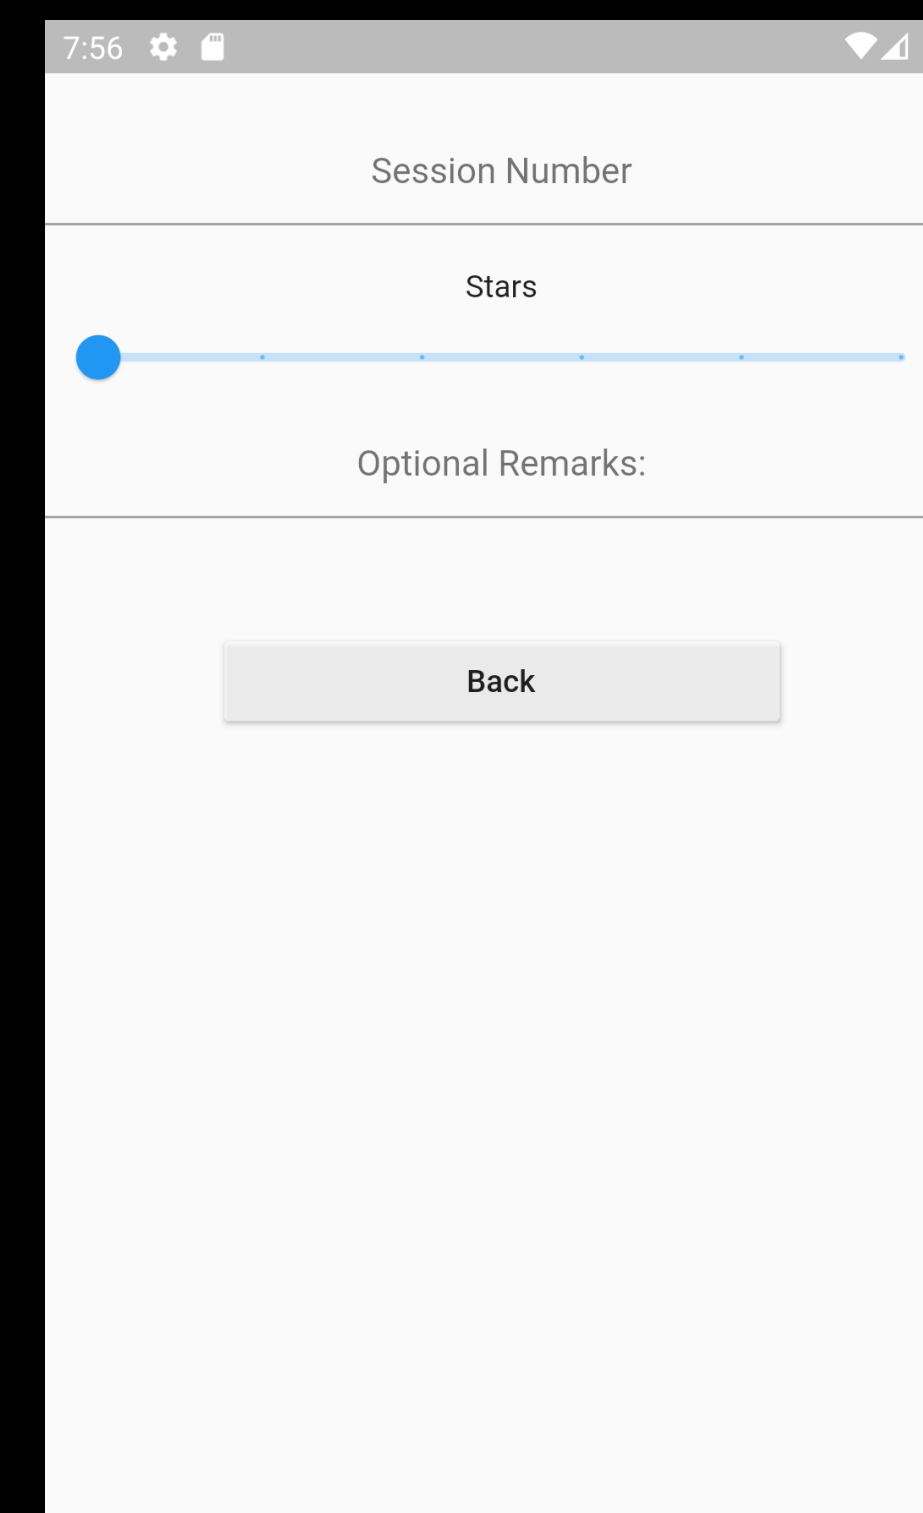

Safety Features

- ID card photo upload while registration
- School name as a mandatory field while registering
- Weekly reports will be sent on the usage of the platform as well as which student interacts with which teacher.
- After a class, our app will have an anonymous "rate the class" option. Here, both the student and teacher can add a brief summary of the call as well as mention if any abusive practises were noticed during the session. If required, necessary action will be taken.

Student can view teacher ID

Student can add class rating

How you can help

- **Connect us with students in your organisation so that they may benefit from this platform**
- **Connect us with more schools and NGO's to ensure that everyone can access and use this free platform**
